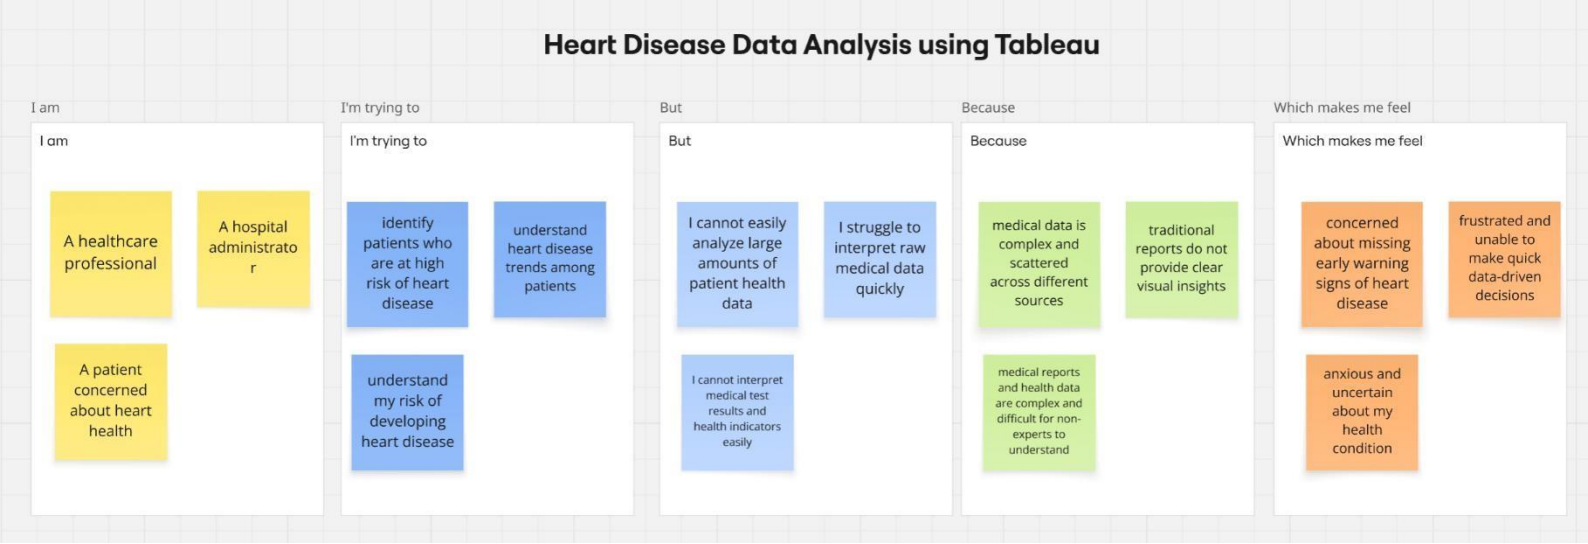
Customer Problem Statement Template:

Create a problem statement to understand your customer's point of view. The Customer Problem Statement template helps you focus on what matters to create experiences people will love.

A well-articulated customer problem statement allows you and your team to find the ideal solution for the challenges your customers face. Throughout the process, you'll also be able to empathize with your customers, which helps you better understand how they perceive your product or service.



Problem Statement (PS)	I am	I'm trying to	But	Because	Which makes me feel
PS-1	A healthcare professional	identify patients who are at high risk of heart disease	I cannot easily analyse large amounts of patient health data	medical data is complex and scattered across different sources	concerned about missing early warning signs of heart disease
PS-2	A hospital administrator	understand heart disease trends among patients	I struggle to interpret raw medical data quickly	traditional reports do not provide clear visual insights	frustrated and unable to make quick data-driven decisions
PS-3	A patient concerned about heart health	understand my risk of developing heart disease	I cannot interpret medical test results and health indicators easily	medical reports and health data are complex and difficult for non-experts to understand	anxious and uncertain about my health condition
